

**PerLe fund for short formats
Application form**

1. Project title

2. Brief description of the project (abstract)

(max. 800 characters including spaces)¹

3.a (Main) Applicant

(Full details: name, position, institute/seminar/department, faculty, e-mail address, telephone number)

3.b If applicable, details about co-applicants

(Full details: name, position, institute/seminar/department, faculty, e-mail address, telephone number)

3.c If applicable, details about cooperation partners

(For each person: name, position, institute/organisation, contact information and respective tasks and services in the project)

¹ Please note: if your project receives funding, this text will appear on all official notifications (as well as online).

PerLe fund for short formats Application form

4. Goals of the project as well as didactic concept

Describe the concrete learning objectives or skills that students should obtain as well as their relationship to one of the topics in the call for applications.

(max. 3,000 characters including spaces)

PerLe fund for short formats Application form

5. Required resources (no basic equipment – “Grundausstattung”)

Please enter the full cost calculation for the project into the Excel file “cost_calculation” (common calculations such as student/research assistant costs have already been entered) and, in the field below, explain or give reasons for why you need the respective positions and equipment in order to achieve the project objectives.² When doing so, please ensure that you observe the information on using funds in the funding announcement.

Explanations and reasons (P1, P2, ...)

6. Non-financial needs

In addition to advice on didactic concepts and methods for creating an application, PerLe also offers various services during the project funding phase. Which services could be useful for your project?³

² Note: if applicable, name any student and research assistants' tasks in the project. Specify any fees for speakers, stating their tasks and the scope of the tasks. Particularly important for materials/equipment - a clear explanation must be submitted as to why these are absolutely necessary in order to carry out the project, and why they are not part of the basic equipment. A total sum must be calculated for each position.

³ Please find further information and contact details in the supplement.
